TURKS MAKE AMBITIOUS REQUEST OF CONFERENCE

Nationalists Demand Practically Prewar Status

SUBMIT PROGRAM

"Mutual Reparations" Is One Of Clauses In Proposal

(Reuter's Service)

London, Feb. 24.—The Near East Conference sat all day today. The Turkish delegates attended this morning's conference but Tewfik Pasha was absent owing to his indisposition. Mustapha Reshid announced that the Turkish delegations were in agreement and asked the Nationalist leader Bekir Sami Bey to state his case.

The latter's demands include:

The restoration of the 1913 frontier of Turkey-in-Europe, and fixing of the frontier of Asia Minor by agreement with the Turkish and Arab majorities of the respective districts, the Turkish frontier on the East to consist of the pre-war Turco-Persian line and the Turco-Armenian frontier as fixed by the recent treaty.

The Governments at Angora and Erivna to return Smyrna to Turkey after its evacuation by the Greeks.

Freedom of navigation and the demilitarisation of the Straits under Turkish sovereignty. Representation of Turkey on the International Commission controlling the Straits.

Protection of minorities.

Recognition of Turkey's judicial sovereignty.

The appointment of a commission of foreign and Turkish jurists to modernise Turkey's judicial system.

Sufficient military and naval forces to ensure internal order and defend the Turkish coasts and frontiers.

Reorganisation of the Turkish gendarmerie with the assistance of foreign officers.

The withdrawal of foreign troops from Constantinople, and from Turkey after ratification of the treaty.

The complete financial and economic independence of Turkey.

THE SPEAK-UP-ABLE TURK!

A valuation of damages with a view to mutual reparations.

The Conference adjourned and later heard a Turkish statistical statement claiming that the Turks were in the majority in Smyrna and Eastern Thrace which, it asserted, should therefore be assigned to Turkey. After the Turkish delegates had withdrawn, the Conference invited M. Callogeropoulos to submit the Greek statistical statement regarding Smyrna and Thrace.

London, Feb. 24.—In the House of Commons today, Mr. Cecil Harmsworth, Parliamentary Under Secretary for Foreign Affairs, said there were 22 British prisoners in the hands of the Angoraites, and a number of Turkish Nationalists in British custody. The Angora Government had refused to discuss the release of prisoners, but he hoped the matter would be settled at the present conference.

London, Feb. 24.—M. Venizelos has left London and now does not intend to confer with M. Callogeropoulos.

London, Feb. 24.—A proposal made to the Near East Conference to appoint a British, French and Italian Commission to proceed to the spot, and inquire into the questions regarding Smyrna and other matters raised by the Greeks and Turks is welcomed in French and Italian quarters, and it is anticipated that the Greeks and Turks will accept. The opinion is expressed in Conference circles that this will bring about a solution with the least possible modification of the Treaty of Sevres.

He leaves today for Peking to sign the loan with Mr. Liang Mung-yew, director of the mint commission who is now in Peking.

The security for the loan will be special treasury bonds of the Salt Office and is redeemable in three years by monthly instalments of $70,000 of silver dollars to be manufactured by the new mint.

Arrangements for the loan were completed yesterday.

Separate Trial Asked In Shaw Libel Suit

In connection with the suit for alleged libel in which Mr. G. L. Shaw of Antung is seeking to recover the sum of $50,000 in the United States Court for China from Mr. G. Bronson Rea, publisher of the Far Eastern Review, and Mr. Patrick Gallagher, former editor of the publication, a motion was filed yesterday by Mr. P. M. Linebarger, representing Mr. Gallagher, asking that the claim against Mr. Gallagher be considered separately from that against Mr. Rea. It is explained in the motion that Mr. Gallagher has severed his connection with the Far Eastern Review:

UNITY OF ALLIES LOOMS AS SNAG TO GERMANS' PLANS

Von Simons Hedges When Pressed To Tell His Intentions

MAKES EXCUSES

Teuton Press Fears Disturbances Will Follow Conference

(Reuter's Service)

Berlin, Feb. 24.—With the approach of the London Conference, Dr. von Simons' intransigency appears to be wavering. Pressed at an economic council to say whether he were prepared to oppose an unequivocal "No" to the Allied demands, Dr. von Simons recollected that the Paris decisions had not been brought forward at random but as a result of fierce conflicts. He urged that the Allied unity be taken into account in the drawing up of counter-proposals, especially as the French newspapers are saying that the London Conference was called to discuss not revision but execution of the Paris decisions; in which case, Dr. von Simons declared, the Conference would be futile.

Berlin, Feb. 24.—As the result of violent pan-German propaganda following the decisions of the Paris Conference, apprehensions are entertained of an outbreak of disturbances in Germany during the London Conference, and the possibility of an attempted coup d'etat is even discussed.

London, Feb. 24.—In the House of Commons today, Mr. Austen Chamberlain stated that deliveries in kind which up to the present had been allocated by the Reparations Commission to the British Empire including 3,181 tons of dyestuffs, 304 ships with an aggregate tonnage of 1,508,000, whereof 262 had been sold for £13,609,000, from which £3,100,000 must be deducted for expenses, and repairs.

Sir Archibald Williamson, Financial Secretary to the War Office, said that the War Office had received from Germany 346,000,000 marks in local currency towards the upkeep of the Rhine Army.

(French Wireless through Reuter)

Paris, Feb. 24.—The Journal des Debats announces that the French Ambassador, M. Charles Laurent, will leave Berlin on Friday to attend the London Conference. The President of the Liberian Republic and M. Seydoux, the reparations expert, left for London this morning. The Belgian delegation, including the Minister for Foreign Affairs, M. Jastar, M. Theunis, M. Delacroix and General Maglinse, arrived there last evening. The Bulgarian mission, with the Minister of War, M. Daskolf, at its head, has also arrived in the British capital.

The French Minister of Liberated Regions, M. Loucheur, has been in conference with the British Chancellor of the Exchequer, Mr. Austen Chamberlain. He lunched today with the Secretary of State for the Colonies, Mr. Winston Churchill.

French Army Ready, Says War Minister

(French Wireless through Reuter)

Paris, Feb. 24.—During the debate in the Chamber on the army estimates, M. Barthou, the Minister of War, declared that the French Army had at present no need to fear any military aggression on the part of Germany. M. Doumer, the Minister of Finance, declared that the Army had sufficient excellent war-material for a hundred divisions.

Replying to M. Lefevre, the former Minister of War, M. Barthou refused to state the number of France's divisions at present, but assured the Chamber that the first measures of mobilisation necessary to ensure the safety of France would enable her to coerce any adversary unwilling to keep its engagements or to defend herself against this adversary's aggression. The statement was received with repeated applause.

Solomon Had Cinch To What This Judge Faced

(Special Cable)

Pittsburg, Pa., Feb. 24.—Gragich Gagius and Joe Sumar still are looking for an expert who can give them some straight dope on the population of China.

Gragich and Sumar had great hopes they would be able to settle the question of just how many Chinese there are in China when they went into Common Pleas Court and asked Judge Kennedy to decide which of the two had won a bet made between themselves. Sumar wagered $180 against Gagius's $90 that the population of China was under 400,000,000.

After wrestling with the knotty problem for some time Judge Kennedy announced that the "court had no way of ascertaining the population of China, and, further, that the tribunal had no jurisdiction in the case."

LEAGUE TO SET PLEBISCITE DATE

Council To Act In Polish-Lithuanian Dispute When Facts Are Known

(French Wireless through Reuter)

Paris, Feb. 24.—The League of Nations Council met this morning to consider the differences which exist between Poland and Lithuania. It took cognisance of the report submitted to it, which pointed out that both parties had declared themselves willing to accept the finding of the Council as regards the territory of Vilna. On the strength of this, the Council despatched a Note stating that it was now possible to foresee an early arrangement of the plebiscite, and that as soon as the Council had obtained the necessary information it would fix a date for it.

As there are still a number of points to be adjusted, the Council decided to hear the Commission sent by the League of Nations to the Vilna region, with Colonel Chardigny at its head. The latter informed the Council regarding the present situation in Vilna and the result of the activities engaged in there by the Military and Plebiscite Commissions.

Owing to the fact that Colonel Chardigny had not finished his report at the close of the morning sitting, the Council was unable to hear the Lithuanian and Polish representatives as had been previously agreed. The question of Switzerland's refusal to allow the international force, which is to supervise the plebiscite, to cross her territory, is the next to be considered.

(U. S. Navy Radio through Reuter)

New York, Feb. 25.—According to Paris advices, the League of Nations Council has stopped consideration of questions affecting the United States, including the protests against the Mesopotamia and Yap mandates. The protests were printed in different languages and given to the delegates, instead of being read. They consisted of eight printed pages.

Sarawak's Status Aired In Commons

(Reuter's Service)

London, Feb. 24.—In the House of Commons today, Mr. T. W. Grundy (Labor: Yorkshire, W. R.), asked if an appeal lies from the Rajah of Sarawak to the Governor of the Straits Settlements, and whether the British Government had any control over the administration of Sarawak.

Lieutenant-Colonel Amery replied that Sarawak was independent but under the protection of Great Britain, whose Government had no control over her administration, except within the limits of the Agreement of 1888.

Mr. Thomas Griffiths (Labor: Monmouthshire), asked for a statement of the annual revenue of Sarawak for the past three years, and the proportion spent on the Rajah and his family.

Lt.-Colonel Amery replied by quoting the departmental Sarawak reports for 1918 and 1919, but said he had no information for 1920.

BRITISH TROOPS IN ERIN URGED TO KEEP COOL

Commander Demands Discipline Despite "Savage Provocation"

SLAUGHTER KEEPS UP

More Murders Of Police And Soldiers Reported; Details Lacking

(Reuter's Service)

London, Feb. 24.—Further cold-blooded murders of police and soldiers are reported from Ireland.

General Sir Nevil MacReady, the Commander-in-Chief, has issued an order appealing to the troops to maintain discipline "even in the face of provocation such as would not be indulged in by the wildest savages of Central Africa." The Commander-in-Chief says that undoubtedly these crimes are a deliberate attempt to tempt the troops to break discipline, and so to assist the scurrilous campaign of propaganda on which the rebel leaders rely for sympathy.

London, Feb. 24.—Sir Hamar Greenwood stated today in the House of Commons that 62 members of the forces in Ireland had been arrested for robbery and other offenses since January 1.

London, Feb. 24.—The King's Bench Division at Dublin has refused an application of Habeas Corpus for a resident of Tipperary named Allen, who was condemned to death by a military court for having in his possession a revolver and a book entitled "Night Fighting," holding that it has no power to interfere with a military court in a martial law area.

London, Feb. 24.—The Crozier affair has been the subject of further questions in the House of Commons. Sir Hamar Greenwood has denied that the cadets in question were returned to duty, and reiterated that they were sent back in order that a complete investigation might be held. The suggestion that Commandant Crozier's letter to the press was due to frustration of his efforts to secure a high standard of discipline was not founded on fact. It was through the miscarriage of General Tudor's letter that Commandant Crozier thought he was ignored, but was he not, the Chief Secretary asked, bound to support the Chief of Police, especially in view of Commandant Crozier's unwarranted statement that indiscipline was being condoned? The speaker accepted the motion of Mr. Redmond to adjourn the House for the purpose of debate, but suggested a postponement of one week in order to avoid delaying the passage of the Unemployment Insurance Bill, and this was agreed upon.

TEXAS VETERAN OF WORLD WAR TO AID IN FAMINE RELIEF

Soldier Of Fortune, Bearing 28 Wounds, Offers Services To Red Cross

Mr. R. B. Irving, soldier of fortune from the state of Texas, U.S.A., who has won a wide circle of friends in the six months he has served as clerk at the Astor House, has resigned from this post and is leaving early next week for the north to engage in famine relief work with the American agencies employed there in allieviating distress in the stricken area.

Mr. Irving will be employed under Mr. George E. Baker, in charge of American Red Cross work and he expects to go from here to Tehchow where he will report to Doctor Tucker. He expects to be engaged at first in establishing a chain of grain agencies, for buying and distribution, beginning at Tehshow and Tsinanfu.

Mr. Irving was in France at the time of the outbreak of the war and was one of the first Americans to offer his services with the result that he saw service through the entire war, first in the French Foreign Legion and later with the American forces, completing his period of military service in Siberia under General Graves. In the fighting he saw in France, Mr. Irving gained intimate acquaintance with the German flamenwerfer, as he was caught in one deluge of these streams of liquid fire, suffering painful injuries from which he recovered to suffer in all a total of 28 wounds later.

At the time of his discharge from the American army Mr. Irving had the rank of captain, acting Major.

Civic League Discusses Extension Of Franchise Outside Of Settlement

Addresses Are Given By Members, Resolutions Adopted And Move Is Made To Present Question To Ratepayers

Plans again to bring before the ratepayers the need of extending the franchise to residents living outside of the Settlement boundaries were outlined yesterday at a meeting of the Civic League which was held at Grace Church. Mr. A. J. Hughes presided at the meeting and interesting addresses were delivered by Mr. I. Mason, Dr. J. Darroch and Mr. Cecil Holliday while several of those present took part in a general discussion of the subject.

In his address Mr. Mason reviewed the entire question of bringing about extension of the franchise to the many residents outside of the Settlement and he referred to the action he took at the ratepayers meeting of last year in raising questions on this subject.

Mr. Mason presented several resolutions which Doctor Darroch seconded after the address he gave and which were adopted by the meeting after a number of amendments had been accepted. The resolutions adopted were as follows:

1.—This meeting of Shanghai ratepayers who live outside Settlement limits believes that the time has fully arrived when the franchise should be extended to all ratepayers who would be eligible under Section XIX of the Land Regulations if they resided within the Settlement.

2.—We therefore petition the Municipal Council to take immediate steps to secure the extension of the franchise within the area in which it functions and in which it collects rates and taxes.

3.—Further it is decided to request the Municipal Council to petition the various Consuls at Shanghai with a view to obtaining their full and effective co-operation in securing the said extension of franchise.

In addition to these resolutions the meeting authorised the Civic League to prepare a petition to be signed by as many ratepayers as possible in connection with the object sought and this is to be submitted to the consular body.

The Civic League also was authorised to present the franchise question to the ratepayers of the Settlement at the forthcoming ratepayers meeting.

FORM NEW TRUST TO ASSIST LOCAL RUBBER HOLDINGS

A new trust company, with an authorised capitalisation of Tls. 1,000,000, has been formed here for the purpose principally of tiding over the local rubber companies, many of which, suffering from a shortage of liquid funds and unable to secure further assistance from the banks, find themselves in serious straits and in danger of losing their properties.

The new company is called The Shanghai Plantations Trust, Ltd. It is proposed to issue 100,000 shares of Tls. 10 each, 50,000 to be issued at the present time. Of these 10,000 have already been privately subscribed for. The directors are Messrs. H. E. Arnhold, A. W. Burkill, N. G. Maitland and A. J. Welch.

It is intended to advance mortgage secured loans to rubber companies and when the time arrives when such loans are no longer required the shareholders will be asked to decide whether the company shall go into liquidation or continue as a loan and investment trust. The prospectus will be found in another column.

HARDING HAS DECIDED ON U.S.--GERMAN PEACE PLAN

Will Ask Incoming Congress To Pass Resolution

'CONSULT ALLIES'

Attorney General-Elect Gives Outline Of New Policy

(U.S. Navy Radio Through Reuter)

St. Augustine, Feb. 24.—President-Elect Harding has virtually decided on a program for bringing about peace between the United States and Germany. This includes the passing of a resolution declaring peace, and informal exchanges between the United States and the Allies with a view to adjusting financial and other questions.

Probably a special session of Congress will be called for April 4, and domestic affairs will then have first place. With tariff revenue legislation is well under way the question of the Peace Treaty will be brought up, Mr. Daugherty adds that President-Elect Harding intends to be accessible to everybody, and will not hurry the filling of diplomatic and other appointments.

Once in office, President-Elect Harding intends to have recourse to consultation with the Republican leaders in Congress before deciding the broad lines of his program, and when constructive legislation is under consideration the democrats will also be called in to confer, according to Mr. Harry K. Daugherty, the new Attorney-General.

The Cabinet selections are generally well received, and it is considered that the new Cabinet will be especially strong from the international aspect, since Judge Hughes, Mr. Hoover, Mr. Denby and Mr. Fall are all well versed in foreign affairs.

President Wilson will ride with President-Elect Harding to the Capitol on the occasion of the latter's inauguration on March 4.

HOOVER ACCEPTS CABINET PLACE

Will Be Secretary Of Commerce, But Will Carry On As Relief Chief

(U. S. Navy Radio through Reuter)

New York, Feb. 24.—Mr. Herbert Hoover has accepted the portfolio of Secretary of Commerce, but will continue as Director-General of the Allied Relief Administration.

When Mr. Hoover was offered the Secretaryship he demurred at first on the ground that he would be more useful in his present capacity as director of European relief. Mr. Harding, however, is believed to have convinced Mr. Hoover that since the relief work will not be of a permament nature his connection with it need not stand in the way of his acceptance of the commerce portfolio, and that he could continue to discharge both duties without impairing his service to either for the time being, at least.

Mr. Hoover, it became known, urged upon the president-elect the advisability of enlarging the scope of the Commerce department, but it was stated, in this connection, that he did not made this suggestion a condition of his acceptance.

Plan Is For Road To Wusih, Hangchow, Kashing And Back To Shanghai

Tentative plans for a motor highway 260 miles in length from Shanghai to Wusih thence to I-shing, to Hangchow, to Kashing and back to Shanghai were presented by Mr. Sidney Powell, consulting engineer recently of Nantung-chow, at a meeting of the Executive Committee of the Good Roads Committee of the Pan Pacific Association yesterday. Mr. Powell presented the plans in connection with his report as chairman of the Survey Committee.

He explained that the proposed highway would skirt Lake Tai Hu and pass near Mokanshan. Hanchow would be brought within five hours by motor car and a trip over the entire highway could be made within two days.

Mr. Yung Chung-ching, flour merchant of Wusih, one of those present, extended an invitation to the committee to Wusih on March 9 to examine new roads recently constructed at Wusih. Mr. R. C. Patterson of the Dupont Company was elected a new member of the committee.

It was announced at the meeting that Dr. C. T. Wang is making plans to hold a general meeting shortly of representative men from all parts of China to discuss the question of roads. Dr. P. W. Kuo of Nanking was one of those present.

Sikh Is Charged With Attempting To Murder Woman

Ex-Policeman Committed For Trial By British Police Court Yesterday

Charged with attempted murder, a Sikh named Mula Singh, formerly in the employ of the Municipal police was committed for trial by the British Police Court yesterday. The hearing will come up on Monday morning. The complainant in the case is a Chinese woman, whom the accused, according to the police, had suspected of having caused the loss of his job as policeman.

The attempt to murder was alleged to have taken place at 411 Urga Road, occupied by the complainant, who, the police say, was formerly a brothel-keeper. Inspector Gibson of Harbin Road station prosecuted.

In outlining the case, Inspector Gibson stated that complainant was brought to the station Thursday morning. She bore signs of being badly wounded, was covered with blooded and was rushed to St. Luke's Hospital and later removed to St. Elizabeth's Hospital.

The accused was later found at the scene carrying a chopper, which he threw away when he saw the policeman. This was picked up by a Chinese and handed over to the police. It bore blood stains.

The accused denied the charge and subsequently alleged that the woman had inflicted the wound herself.

Mixed Court Jottings

George High, 18 years old, claiming to be a British subject but unrecognised by the British authorities, was sentenced to a month's imprisonment by the Mixed Court yesterday for larceny of property valued at $1,000 from Messrs. Adolph Frankau and Co., 1A Jinkee Road.

Caught trying to break into a house on Tsepoo Road, a Chinese admitted to the police that he had successfully negotiated eight other burglaries and had been convicted three times previously in the Mixed Court. They laid him away for two years yesterday and at their expiration he will be expelled once more.

Valentin Leonardo, Russian charged with vagrancy, was released yesterday on condition that he will leave Shanghai within a week.

The chauffeur of a Public Works Department motor truck who was charged with reckless driving on Thorburn Road and running into and damaging the motor car of Mr. J. W. Gando was dismissed yesterday, the Court holding the evidence to be insufficient to convict.

Bail of $50 is excessive when applied to the patrons of opium dens, according to British Assessor Blackburn, who commented on a case yesterday. Eight men had been arrested in a raid made at 507 Nanking Road and the proprietor, who had been bailed in the amount of $200, and five of the smokers seized, failed to appear, forfeiting their bail money. The two smokers who appeared were fined $3 each. As regarded the proprietor, the Court remarked that there was no objection to the amount, but in the case of the rest, as the usual fine of $3 appeared sufficient, the sum of $50 for security seemed very excessive. "A lot of these smokers have it in their blood," said the Assessor, "and have been smoking for years and I think it rather rough that they should have to put up bail of $50."

A Chinese houseboy charged with assaulting Mrs. Lacher, 34 Markham Road, by striking her with his fists after he had been discovered visiting with her servants, was given five days' imprisonment.

Mr. Welty replied that "when trying to catch a rabbit, you have to follow his tracks."

The Chairman, Mr. Volstead, admonished him with—"Well, give us the facts and don't make so many speeches."

In discussing the indictments of "throwing" game later, Mr. Welty said: "I'm going to show that these players are guilty of bribing Landis."

Appeal For More Particulars Granted In Suit Brought By Russian Volunteer Fleet

An application for more particulars was made yesterday on behalf of the defendants in the civil action brought in the Mixed Court against Mr. M. A. Morducovitch and Mr. W. G. Goddard by the Russian Volunteer Fleet. The suit is for an accounting regarding certain sums of money, stated as being over $300,000 in the aggregate, which it is alleged the plaintiffs remitted and authorised for payment of certain outstanding accounts and which plaintiffs believe were not used for that purpose.

The defendants in the case were made Shanghai agents for the Russian Volunteer Fleet some years ago, under the old Russian regime, and the suit is brought by the Vladivostok administration of the Fleet, which does not recognise the old agents.

ECHO TO PREVIOUS CASE

The action arises out of previous proceeding in which a judgment was given in favor of the New Engineering and Shipbuilding Works on a claim for Tls. 170,000 for repair work done on the Fleet's vessels. Three ships in port were ordered detained. The defendants served were the old agents and last Saturday attorneys for the new administration applied to have the judgment rendered null and void. The Mixed Court declined to decide between the rival claimants to authority and it was intimated that the matter might be brought up in the British Court.

The present case is being heard by Russian Assessor Ivanoff and Magistrate Loh and the motion yesterday, which was unopposed and was granted, was made by Mr. S. H. McKean, representing the defendants. Messrs. Stirling Fessenden and C. P. Holcomb represent the plaintiff.

ASK WHAT AUTHORITY

The application requested that plaintiffs give particulars of the constitution of the organisation, with rules and regulations, if any; particulars of the person or persons having authority to sue or be sued by or on behalf of the plaintiffs in Shanghai, and particulars of the authority under which such person or persons have instituted the present action.

The plaintiff's petition sets forth that the plaintiff is the Russian Shipping Association held in trust for the Russian nation and that the defendants were agent and agent's attorney prior to May 10, 1920 and that the agency here is under the jurisdiction of the general manager of the Far Eastern Department at Vladivostok.

ALLEGATIONS OF PETITION

In particularising the grounds of action the petition alleges that on March 1, 1920 the first named defendant had in his possession or on deposit the sums of Tls. 5,289.90, Mex. $9,395.73, £897.17/3 and Roubles 571.74 and that there was also on deposit to the credit of the plaintiff in the Russo-Asiatic Bank $71,523.67, and that prior to February 27, 1920 the first named defendant requested the general manager of the Far Eastern Department to forward large sums of money for the purpose of paying certain outstanding accounts which he alleged were due by the company and which he itemised, and that the plaintiff by its general manager on February 27 forwarded a check on the Russo-Asiatic Bank for $70,000, with instructions that it be used to pay the obligations. The second named defendant is alleged to have acknowledged receipt of the sum.

INSTRUCTIONS TO PAY

The petition continues to state that defendant requested an additional $100,000 on March 5 and that on March 27 the plaintiff forwarded certain bills of the New Engineering and Shipbuilding Works, aggregating about Tls. 36,000, with instructions that defendant pay them with funds in his possession. That on April 9 the plaintiff authorised the agent at Chefoo to remit available cash to defendant and he remitted Chefoo Tls. 3,300 and $15,000.

A letter from the defendants is quoted, dated April 22, 1920, enclosing a bill for Tls. 51,273 for repair work done by the Shipbuilding Works and stating that the sum of Tls. 200,000 at least would be needed by the agency.

The quoted reply to the letter instructs the defendants to meet the payments with the cash on hand and the sum of £17,360 which it is alleged the Russo-Asiatic Bank was instructed telegraphically to turn over to him, and sums of $15,000 and Yen 50,000 which it was decided to remit from Vladivostok and with sums of $4,800 and £8,000 which the agents at Chefoo and Colombo were instructed to remit.

ASK FOR ACCOUNTING

The petition alleges that all of these sums were remitted for the specific purpose of paying large outstanding accounts for repairs to steamers and that the plaintiffs do not believe defendants have used and paid the sums for the purpose for which they were deposited, but that, without authority, they used the sums for other and personal purposes. The plaintiff, therefore, asks that defendants be required to render an accounting showing the status of the funds received after January 1, 1920 and all payments made on plaintiff's behalf, and that they be required to pay plaintiff all funds deposited with them and not used to the credit of or on behalf of plaintiff as authorised.

Agents For Former Omsk Government Defendants In Suit

In the case of S. Heiman and Co. against the Russian Department of Food Supply in China and their deposits in the Russo-Asiatic Bank, Assessor Ivanoff and Magistrate Loh ruled yesterday in the Mixed Court that judgment would be given in default if defendants did not appear to answer the claim within 20 days after publication is made in local Chinese, English and Russian papers.

The defendants were formerly a commercial agency acting for the Omsk Government and plaintiffs entered into an agreement with them to transport goods from Tientsin to Vladivostok. They chartered a ship and, upon the Department cancelling the agreement, had to pay a forfeit. The Court previously held that it had no jurisdiction but afterwards granted a rehearing.

CASTORIA
for Infants and Children.
Save the Babies.

INFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twenty-two per cent, or nearly one-quarter, die before they reach one year; thirty-seven per cent, or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium, or morphine. They are, in considerable quantities, deadly poisons. In any quantity, they stupefy and retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse. It causes the blood to circulate properly, opens the pores of the skin and allays fever.

The signature of Chas. H. Fletcher guarantees genuine Castoria

Physicians Recommend Castoria.

"I have used your Castoria in cases of colic in children and have found it the best medicine of its kind on the market."
J. E. SIMPSON, M. D., Chicago, Ill.

"A medicine so valuable and beneficial for children as your Castoria is deserves the highest praise. I find it in use everywhere."
J. S. ALEXANDER, M. D., Omaha, Neb.

"Have used your Castoria on various occasions in suitable cases and have found it a palatable and efficient laxative, especially in the various diseases of childhood."
CHAS. EDWARD GARDINER, M. D., Brooklyn, N. Y.

"Castoria is good for children and I frequently prescribe it, and always obtain the desired result."
F. GERALD BLATTNER, M. D., Buffalo, N. Y.

"I have prescribed Castoria to families for several years. It is all right. Mothers like it, for children will take it without any trouble."
C. A. WILSON, M. D., St. Louis, Mo.

"Your Castoria is a splendid remedy for children, known the world over. I use it in my practice and have no hesitancy in recommending it for the complaints of infants and children."
J. A. BOARMAN, M. D., Kansas City, Mo.

IF RHEUMATIC DISSOLVE THIS IN YOUR MORNING TEA

Then watch the pains, aches, swellings, stiffness, and other misery disappear. They simply HAVE to go, says ALICE LANDLES, certified nurse.

Rheumatism can be caused in but one way. That is by acids and impurities in the blood. Chemical analysis and microscopic examination of the blood prove this beyond the possibility of doubt or argument, as any standard medical work will explain in detail. Of course, various conditions, such as exposure to cold and dampness, or committing certain errors of diet, can make rheumatism worse, but the primary cause always remains the same. Therefore, trying to get rid of rheumatism without ridding your blood and system of the acidulous impurities which directly cause this physical calamity, is exactly like trying to get rid of smoke without putting out the fire. Pain-causing and kidney-irritating uric acid is no different from any other acid in that *it must be neutralised by an alkaline liquid.* Nothing else can have just the same effect, this being an elementary principle of chemistry, of course. It naturally follows that to dissolve, neutralise and wash out the rheumatic acids the liquids you drink must contain the necessary alkaline elements to be absorbed into the blood and act upon the acids. These elements are easily provided. Simply get a small supply of the refined Alkia Saltrates compound from any chemist. A pinch of this should be dissolved in your tea, coffee, water, or other drink and taken every morning. No trace of any bitter, salty, sour, or other taste can possibly be detected. Also it cannot upset or irritate even the most delicate stomach. The only evidence that you are taking a medicine will be the plainly noticeable relief from rheumatic pain which it quickly produces. In each package of Alkia Saltrates the refiners enclose an authoritative and extremely valuable treatise, giving useful diet hints and other interesting information for rheumatic sufferers.

Note.—We are informed that Messrs. A. S. Watson & Co. of 16 Nanking Road, Shanghai, stock a specially high grade of Alkia Saltrates and are in a position to supply this remarkable compound at very low cost.

PROSPECTUS.

This Company is being formed to carry on the business of an Investment, Trust and Guarantee Company, and to act as financiers and capitalists; and one of its principal aims will be to assist local Rubber Plantation Companies in surmounting difficulties they are now faced with and thus retaining possession of valuable estates on the development of which a very large amount of capital—upwards of Tls. 15,000,000 has been expended. The present crisis in the rubber industry is no doubt caused by the general dislocation of the world's trade, and there is no reason to suppose that it will not disappear when normal conditions are restored; but in the meantime it will be necessary for all Rubber Companies to provide the funds required for upkeep and management.

Recent reports show that the market price of rubber has fallen below the figure which represents, for many Companies, the cost of production. Banks, it is understood, decline to make advances to Plantation Companies and experience has shown that applications to shareholders for further capital are unlikely to meet with success. But Companies which have exhausted their reserves and undistributed profits, will be obliged to stop all work on their estates and to discharge their staffs unless they can obtain the money which they require for upkeep and management from some other source. It is obvious that if every Company could count on the support of its own shareholders for an issue of further capital or of debentures, there would be little cause for anxiety. But while some Companies are no doubt in a position to raise funds this way, a very large number are not; principally for the reason that shareholders are unwilling to undertake further risks unless they are certain that their fellow shareholders are assuming a like responsibility. It is thought, however, that those who are genuinely interested in the preservation of valuable estates, for the ultimate benefit of those who have developed them will welcome the establishment of a concern with a capital sufficient to enable it to help every worthy applicant. Shareholders in local Plantation Companies who subscribe for shares in this Company will at least have the satisfaction of feeling that they are working in co-operation with others who have similar interests and for mutual advantage: and many of them will consider that they are justified in subscribing a sum at least equal to 10% of the nominal value of their present holdings for the protection of their investment.

If rubber remains at its present price such Rubber Companies whose production cost continues to exceed the market value of their produce must inevitably go under but it is a reasonable assumption that the sale of their estates will realize a sum sufficient to discharge all their liabilities or at any rate their liabilities to secured creditors. It is not proposed to make a loan to any Rubber Company except against a mortgage or charge on its property and upon condition that no dividend is paid to its shareholders until the loan is repaid with interest.

It is anticipated that this Company will be called upon to supply a large sum each month for some time to come, but any improvement in the price of rubber will have the effect of restoring a number of Companies to a self-supporting basis. When the time comes that such loans are no longer required the shareholders will be asked to decide whether the Company shall go into liquidation or continue as a Loan and Investment Trust. For the present the Company's funds will be employed only for the purposes above-mentioned.

The minimum subscription on which the Directors may proceed to allotment is 30,000 shares. It is proposed to pay a commission at the rate of five cents per share to members of the Shanghai Stock Exchange or Shanghai Share Brokers Association who may procure subscriptions for shares of the Company.

The estimated amount of Preliminary Expenses is Taels 2,000.

The Articles of Association provide that the qualification of a Director is to be the holding of 100 shares in the Company. The Directors do not propose to take any remuneration for their services until such time as the Company is earning a profit. The remuneration of the Secretaries and General Managers has been fixed by the Articles at 10% of the amount distributed by way of dividend to shareholders. They will receive no other remuneration whatsoever. Mr. A. J. Welch one of the Directors is a Director of J. A. Wattie & Co., Ltd., the proposed Secretaries and General Managers. Messrs. A. W. Burkill and A. J. Welch are members of firms who act as Secretaries and General Managers of various local Rubber Companies.

Copies of the Memorandum and Articles of Association of the Company can be inspected at the office of the Company's Solicitors at any time during business hours. A copy of the Company's Memorandum of Association is printed in the fold of this Prospectus and forms part of it.

Application for shares should be made upon the form accompanying the Prospectus and sent to the Company's Bankers, the Hongkong and Shanghai Banking Corporation, together with a remittance of the amount payable on application.

Where no allotment is made the deposit will be returned in full and where the number of shares allotted is less than the number applied for any balance of the deposit will be applied towards the remaining payment.

Failure to pay any future instalment on shares allotted will render previous payments liable to forfeiture.

Prospectuses and forms of application can be obtained at the Head Office of the Company or from the Company's Solicitors.

This Prospectus has been duly filed with the Registrar of Companies, Shanghai.

Germans Undercut British Goods In Britain's Markets

Comparative English Labor Costs Four Times Those Of Germany Exchange Rates

Large quantities of German goods are finding their way into the markets of the United Kingdom, according to a report to the U. S. Department of Commerce from Consul H. C. Claiborne, at London.

Aided by the rate of exchange, the longer hours of labor and the relatively greater production per workman, he says, many lines of manufactured goods of German origin are offered at prices substantially below the British cost of production, the quotations being in sterling, usually including cost, insurance and freight, British port.

In the House of Commons recently attention was called to the fact that German workmen before the war were paid on an average of 40 marks a week, and the product of their work was imported into Great Britain on the basis of a labor wage of £2 a week. The same class of German workmen, it was stated, are now paid on an average of 250 to 400 marks a week. At the present rate of exchange the equivalent labor wage is on a basis of £1 to £1 10s, which is in competition with British workmen receiving £4 to £5 a week, thus creating a serious condition of unemployment in certain industries.

According to official statistics of the British Board of Trade, Germany had a balance of over £4,000,000 in her favor as a result of British German trade, during the first nine months of 1920, in articles wholly or mainly manufactured.

The board's detailed returns, which have been received by the Foreign Information Department of the Bankers' Trust Company, show that Germany sold goods of this character valued at £17,190,793, to England. British shipments to Germany of corresponding goods, including re-exports of foreign and colonial products, amounted to £12,952,404.

German exports of manufactured goods to Great Britain were, however, far below the value of similar exports in 1912 and 1913. For the first nine months of these years the Board of Trade figures are: 1912, £36,400,000; 1913, £41,000,000.

Commercial motor cars, worth £1,545,407 comprised the largest single item, in money value, in the list of German goods bought by England in the nine months of 1920. Coal-tar dyestuffs valued at £1,399,027 came next, while toys and games amounting to £94,830 were third. Other large items included paper, £792,545; silk broadstuffs, £599,273; wool tops, £501,040, and glassware of all kinds, £621,275.

Great Britain's largest exports to Germany were cotton yarns and manufactures valued at £3,319,969; woollen and worsted yarns and manufactures, £3,072,894; wool tops, £958,516; soap £381,799, and leather £380,127. Her re-exports to Germany of foreign and colonial products amounted to £2,312,095 one-third of this amount representing gasoline and oils.

Catalogued for Sale: 2,377,498 lbs. (about 1,061 tons).
Sold: 1,535,247 lbs. (about 685 tons).

Owing to the Chinese New Year holidays our weekly auctions took place on Friday this week. At the start yesterday morning there was a good demand at improved prices in consequence of a considerable rise in the London market. During the sale, however, weaker reports from London came in, and buyers immediately became more reserved.

Standard Ribbed Smoked Sheet sold up to 37½ cents, which is 2½ cents higher on the week. The average price may be given as 36½ cents.

No lots of Awarded Standard First Latex Crepe was sold. Three lots, however, practically Standard Quality, fetched 38, 39 and 39½ cents.

Off Quality Sheet and Off Color Latex were in good demand and sold at prices 3 and 4½ cents respectively above last sale's.

Brown, Dark and Barky Crepes found ready buyers, improving on an average about 1 cent on the week.

At the continuation this morning prices show practically no change.

Meyer and Measor.

No. 1 Smoked Sheet $0.34½ per pound equivalent to 0s. 9½d. ex warehouse Singapore.

No. 1 Crepe $0.38 per pound equivalent to 0s. 10¾d. ex warehouse Singapore.

Market steady. Offered 684 tons; sold 521 tons.

Messrs. J. A. Wattie and Company have received the following telegram from Messrs. Barker and Company, London, dated Feb. 23.

Average Spot price standard quality Ribbed Smoked Sheet 11¼d.

Average Spot price standard quality First Crepe 1s. 1½d.

Market steady.

Cotton

Messrs. J. Spunt and Company write as follows in their cotton market report of today.

China Cotton:—There has been practically no change in the situation of our market during the past week in respect of any active demand on the part of spinners and while quotations as circulated would induce an inference of weakness yet no sooner any actual negotiations for business arose sellers assumed a firmer attitude, in no way inclined to accede to buyers' views.

It is estimated that approximately 50 percent of the crop is retained by the farmers who, being well supported financially, show no eagerness to part with their holdings at present rates and entertain expectations of more profitable realisation of their stocks in the near future, encouraged in their attitude by the continued low silver exchange and the firmer Indian markets which would otherwise seriously affect the local staple.

Under the circumstance therefore a long would prove safer than a short position. Tone of the market, Quiet.

Peking Notes

Personal Mr. J. Ross Tilford leaves this morning for Shanghai where he will meet Mr. and Mrs. Frederick W. Stevens, who are returning from Canton. Mr. and Mrs. Stevens will probably pay a visit to the "model city" of Nantungchow before returning to Peking, arriving back in the capital about March 3.

Captain and Mrs. Hatchins, and Mr. Rodney Gilbert, who have been visiting in south China for several weeks, are expected back in the capital on the 24th.

Washington's birthday was celebrated in the capital by a dinner at the Hotel de Pekin under the auspices of the American Legation, Peking Post, and the American Association of North China. Dancing continued until one o'clock.

Japs Blame Chinese In Dispute Our Junk

(*Staff Correspondence*)

Peking, Feb. 22.—Since it has been pressed by the Chinese Foreign Office for a reply to the Chinese demands regarding the sinking, last spring, of a Chinese junk on the Amur River by the shellfire of a Japanese gunboat, the Japanese Legation has asked the permission of its home government to make reply out of the materials now on file in the Legation. The Chinese note was referred, after its receipt, to Tokyo, but the Japanese government, considering the incident one of minor importance, and being busied with other matters, has not yet issued instructions.

If the Legation here is authorised to draft a reply based on the information gathered by the Naval Attache's office, this reply will be a refutation of the Chinese claims upon the grounds that the Chinese junk refused to heed the warning of the Japanese gunboat to stop, and that, as the gunboat was at the time exercising the right of patrol, the responsibility is with the crew of the junk.

The Stately Homes of England

Have you ever wandered through one of those old Elizabethan Manors, of which England is so proud? Did you notice the black, lustrous panelling, doors and stairs? Did it not strike you as curious that the wooden beams in the outhouses had outlasted the stone of which the walls were built? The colour of the wood made you curious to know what stain had been used on it? "Time" imparted that wonderful tone to the wood, and all the base counterfeiters of the craftsmanship of a bygone age have never succeeded in producing an imitation which would deceive a babe. The Wood was Oak, the wood which we suggest you should use for your new floor or panelling.
WE SUPPLY OAK FOR FLOORING, WAINSCOTING, PANELLING, ETC., ETC., KILN-DRIED AND QUALITY GUARANTEED
We give all orders personal attention. After you have placed your order with us, the flooring will be laid and all work carried out under the personal supervision of a foreign expert of the Company. This supervision costs you nothing and we *prefer* to do this for you.
Insist that all lumber for flooring and panelling for interior work bears the "Three Pines" Trade Mark, and the letters "KD" signifying kiln-dried, thus ensuring its perfect quality, and suitability for the severe climatic conditions of China.

The New Consortium And China's Opportunity

THE CHINA PRESS wishes to direct the attention of its Chinese readers, and also of the editors of Chinese newspapers, to the following article by Frederick W. Stevens, who is representative in China of the American group in the New Consortium. Mr. Stevens has just returned Shanghai from a trip to Canton. It will come as a shock to many Chinese who are opposing the Consortium to learn that the United States was largely developed by capital borrowed abroad. China now has the same opportunity that America took advantage of—even a greater one. Here is Mr. Stevens' communication:

Editor, THE CHINA PRESS

Sir: As representative in China of the group of American bankers (for whom only, I speak) I have been asked several questions; among others—what I think of the group of Chinese bankers.

I am glad that it has been formed and that it is headed by able men. Its formation shows that this influential class of Chinese business men are now alive to the importance of their taking an active part in solving some of China's national problems. As one of them recently said, fundamentally all Chinese problems must be solved by the Chinese people themselves. I am deeply impressed by the well known fact that the Chinese masses are sober, industrious, thrifty and peaceable. People with such qualities will surely some day have a stable and beneficent government, and the day will be hastened by this banking group, by commercial groups and by other groups of good citizens, all aiming to help.

If the group of Chinese bankers is to be governed at all times by the policy announced by one of its spokesman, Chang Chiangau, and indicated by the terms of the Railway Car Loan Agreement of January 15, then I say—long life and prosperity to it, for it will then be a good thing for the Chinese people; and whatever is a good thing for them is a good thing for the American bankers. The stronger the Chinese group of bankers becomes, and the longer it lasts, and the more money it furnishes to China for strictly constructive purposes benefitting the Chinese people at large, the better. I agree with Mr. Chang that foreign money should be borrowed by China only when the Chinese people, acting through this Chinese group or otherwise, find themselves unequal to the magnitude of the task presented. The American bankers have no desire to loan money to China when foreign money is not needed by her, and there should not be the slightest occasion at any time for any but the most friendly relations between the Chinese bankers and the American bankers. On the contrary, I believe they will always be good friends.

I have also been asked: "Do you think that China needs to borrow foreign money; and if so, why?"

Let me tell a short story. The American states west of the Mississippi river contain over 2,100,000 square miles, more than in all of China proper including Manchuria. Sixty years ago that great American area had no railroad, no large city, and it contained few people except roving tribes of more or less savage Indians. Its vast deposits of natural resources, its millions upon millions of fertile acres, were doing the American people little good. Today there are millions of prosperous people living there, hundreds of great modern cities, vast industrial activities; and those fertile acres produce enormous quantities of food for the people in all parts of America and for export to other peoples. That area is now a great factor in the commercial, financial and military strength of the American states.

What made the present conditions possible? Railroads and highways. And the first railroads across that area were build largely with "foreign money"—borrowed in Europe on railroad bonds issued in America.

In western China, with its vast areas of fertile acres, wheat is selling, I am told, at about ten cents a bushel. But the enormous quantities of food products that could be produced there, can be gotten to eastern China, or to river ports, only on the backs of men or on wheel-barrows. There is no railroad; there is no highway for modern vehicles. For want of railroads and modern highways, vast mineral resources in that western country and in many other parts of China are useless to her people, millions of whom are employed only in non-productive labor that does not enrich China. Millions upon millions of fertile acres are serving only a small part of her people. Factories, mills and other great industrial activities, that would give productive labor to her people, await the building of railroads and highways. They will cost many millions of dollars, but they will be worth all they cost and they will pay for themselves in short periods. Will the people of China themselves provide these millions?

The completion of the railroad from Hankow to Canton, which will mean so much to China commercially and politically, will cost from thirty to forty millions of dollars gold. Will the people of China themselves provide these millions?

I am told and believe that control by China of the Chinese Eastern Railway in Manchuria is highly important to her, and that it involves raising a vast sum of money at no distant day. Will the people of China themselves provide these millions?

Money borrowed must some day be repaid, even when borrowed for non-productive purposes. China owes a large internal debt and large foreign debts. Will the people of China themselves furnish not only the money to pay these debts but to build railroads also?

Public opinion in China is now a factor of importance. When a central government for all China results from the much needed reconciliation of the provinces and Chinese officials assume the responsibility of dealing with these great problems, they will find their work for China much harder by reason of the false views published broadcast in China about the international consortium. It will then be interesting to learn who are responsible for this anti-consortium propaganda.

FREDERICK W. STEVENS.

FOR OUR FOUR BILLIONS

A Way to Make the St. Lawrence Our Northern Boundary

Says a correspondent of The New York Herald: To those about to sit in the conferences on the refunding of the loan to Britain of some four billion dollars I would like to suggest the abrogation of the Ashburton Treaty and the ceding to the United States of that portion of Canada lying south of the St. Lawrence River. For this consideration we would cancel the debt to us.

This region was won for England mainly by Yankees. It is now peopled in a large part by folk whose forebears were Yankees. There is also a large French element whose political preference for the United States may be judged by their large emigration to New England.

This territory would give us unlimited access to the St. Lawrence, of great benefit from a transportation standpoint. The St. Lawrence under the present distribution of territory offers the same discouragement to free navigation as the Rhine and Danube. Obvious strategic reasons forbid our placing too much dependence on it as an artery of trade.

Yes, the cost is high; sixty-odd dollars an acre against three cents for the Louisiana Purchase. But everything is high in price now.

Correspondence

ATTENTION MR. WOLCOTT!

Editor, THE CHINA PRESS

Sir: A misunderstanding of Chinese affairs is unfortunately characteristic of some of our foreign writers, and there is danger, as long as these misunderstandings continue, that their statements will cause irritation and bad feeling toward foreigners in China.

I should like to ask, therefore, that you publish a correction of an erroneous statement contained in a book published by Mr. Roger D. Wolcott, formerly master of Soochow Academy, Soochow. In this book, a "Geography of the World," printed by the Commercial Press, Ltd., Shanghai, Mr. Wolcott says, on page 132: "In the mountains are many wild tribes and backward peoples, such as the Hakkas. . . . "

Mr. J. Djer Ball, who lived in China forty years, says in his "Things Chinese" that the Hakkas, while they were strangers to the "punti," or natives, were nevertheless masters in China. Certainly there is no reason to say of any people that they are "wild and backward" simply because they are strangers.

Mr. Wolcott knows Cantonese are pure descendants of the old Chinese. He should have known why Cantonese live south of the Hakkas. He should have learned that Cantonese first went to their present homes because Chi Wong Ti, the book-burning emperor, sent them to defend "the Five Rangers." He should have learned that Hakkas first crossed the Yangtsze when the "Five Barbarians" troubled China and settled in Kwangtung after the devastation by the Mongolians. He should have learned also that Hakkas are found in Fukien, Kiangsi, Chekiang, and Kwangsi as well as Kwangtung. The dialect, customs and traditions are not different from those in Siangchow and Honan. How, therefore can he call them "wild" and "backward?"

Sociologically speaking, Hakkas are very progressive and civilised people. The Hakka women did not bind their feet even in the time of bondage. The young Hakkas who go out to other places send money and food to their families faithfully. There are five secondary schools for boys and three for girls in Kaying, a Hakka town of not more than 200,000 people. Such phenomena, I am sure, are not found among the so-called wild tribes and backward people.

The Hakka people have been prominent politically and socially in China, old and new. Feng Shui-chin, who led the Taiping revolution was a Hakka. Wong Kung-tu, the greatest poet of modern Chinese literature and the iconoclast who first learned the principles of constitutionalism in China, was a Hakka too. The famous living Hakkas are Generals Chen Chiung-ming, leader of the Cantonese army; Hung Lok; Liu Chi-lu; Ten Kang, and Ten Pan-yin in Canton; Ex-commissioner Yang of Foreign Affairs in Shanghai; Dr. Kiang, of Tung Tah Hospital; Djou Lu, Sha Liang-moh and Wong Chi-djen in the Parliament, and Dr. Yau of the board of the Foreign Affairs, Peking. There is no truth in the statement that a people producing such men as these are "wild and backward."

I hope Mr. Wolcott will kindly revise his work, now that his mistake has been pointed out to him.

ON EARLY RISING

To be, or not to be! That is the question!
Whether to arise this dark and chilly morn,
Or to take yet another forty winks,
To stay—to sleep—perhaps to dream; of what?

• • •

Leigh Hunt, the essayist affirms: "It is as clear as snow on the housetops, that Adam was hot under the necessity of shaving; and that when Eve walked out of their delicious bower, she did not step upon ice three inches thick."

• • •

The cold mornings recently experienced set me thinking on the pros and cons of early rising. It is all very well for certain hardy folk to tell you that getting up is only a matter of making a resolution—and the thing is done! This may be very true; just as a boy at school has only to take his flogging—and the thing is done.

• • •

Before thinking of arguing the point, I must admit, that the Scotch songster who warbled.

"Oh! its nice to get up in the morning,
But, its nicer to stop in your bed."

Agrees in toto, with me—and I believe that his "brother Jack, the baker" felt the same when he left at 4 a.m. to produce the staff of life.

• • •

There are those who ask the question how lying in bed on a cold morning can possibly be indulged in by a reasoning being—a rational being.

How? Why my dear people it's easy with the argument in one's head and the blanket over one's shoulder. Oh—it's a fine way of spending a sensible, impartial half-hour.

• • •

These advocates of early rising should be brought face to face with the question. Let them stand in a chilly bed room while I *lie* before their faces. Let them hear the two sides of the bed—the inside and the outside—as long as I am on the inside and they are imitating icicles on the outside.

• • •

This early rising is unnatural. Here I have been hours and hours in the warmth that is perfectly suitable to a warm-blooded animal like myself. To get out into a state of cold besides the inharmonious and uncritical abruptness of the transition, it is so utterly against nature that even the poets are united and in arms against it.

When Milton, refining upon the tortures of the damned, wishes to make one of the greatest agonies appreciated he suddenly transports his subject from heat to cold—from fire to ice. They are "haled" out of their "beds," he says, "by harpy-footed furies,"—fellows who come to call them—

Ah! And that reminds me.—When I first open my eyes in the morning it is owing to the musical tinkle of cups and saucers and the dulcet tones of the boy with his "Morning Master."

When he has really convinced me that it is really morning so soon, and I have opened my eyes, thanks to the China tea, I inquire:

"Is it a nice morning, boy?"
"Velly nice, Master."
"But it is cold, isn't it?"
"Small piecee cold."
"Don't you think it's very cold?"
"I tinkee velly cold."

And then I am allowed five delicious minutes while I wait for the shaving water. It comes. Then I ask the boy whether it isn't too hot to use for another five minutes. He replies that it is "just like master likee," but I don't believe him. I gain another five minutes for contact with blankets and thoughts by insisting on having my shirt aired—and then every other bit of clothing that can possibly be aired.

But the time comes for action. The boy points out that the clock is pushing its hands round dangerously near to the point where I should be issuing from my home for work—and there is still shaving!!

Why shave? Most of the world's famous men wore flowing beards—like Samson their strength—intellectual strength lay in refusing to 'get their hair cut.'

Lastly, think of the razor itself—how totally opposed to every sensation of bed—how cold, how edgy, how hard! how utterly different from anything like a warm and circling amplitude, which

"Sweetly recommends itself Unto our gentle senses."

'Spects He Couldn't

A lecturer had been describing some of the sights he had seen abroad during his tour in many countries.

He described the pyramids of Egypt, Niagara Falls, the steppes of Russia, the boiling springs of Hawaii, and concluded generally:

"There are many spectacles in the world that one never forgets."

"I wish you would tell me where I can get a pair," exclaimed an old lady in the audience. "I am always forgetting mine."

For Better Babies

BY DR. Wm. A. McKEEVER

(Professor in the University of Kansas and an Educator of Nation-wide Repute).

It was Oliver Wendell Holmes who said that one's education should begin 200 years before he is born. But since we do not as yet have a course which can be made to reach back so far I am advocating that training begin on the day of birth. That is, training of the child rather than of the parents.

There has just been brought to me the remarkable case of a 3-months baby which sleeps only eight hours per day. This child is very fat—people who sleep too little invariably eat too much—is very nervous, and is dull and stupid mentally. Derangement of the physical life is practically certain to follow in such a case and the injury to the mind is apparent even now. Let us see what is the matter and what can be done..

As a matter of fact this spoiled infant is training his parents and not the converse. He has them on the jump. They are afraid to let him cry, believing that he might break in two or somehow blow up. So, at the first squawk, they grab him up from the crib and jiggle him up and down with about the speed of an electric trip hammer.

This shaking, rocking and patting procedure is continued until the child becomes exhausted and falls into a nervous cat nap. In a half hour there is another infant alarm and the parents rush to the rescue as if the house were afire. Now comes another big meal to cure the pain. When mother's milk is exhausted, the anxious parents pour into the little overloaded stomach large quantities of a baby food till a stupor is induced and heavy sleep must follow.

It would not be necessary to treat the case of this infant with such detail were it not so typical. Many thousands of the younger parents—especially in dealing with their first born—tend from the first to pervert its character by their nervous fears about its crying. The instance of the child described above is bordering on a serious unbalance of the mind. I will prescribe an ideal remedy and leave those concerned to approximate the method of treatment as they are willing and have occasion.

First, if practicable, call in a trained baby nurse for a week. Turn the little one over completely to her care and withdraw from the sound of its voice. Come to the nursery only when called by her. This wretched child needs two or three things quick and a sensible nurse will provide them: Fasting, crying, sleep.

Mark you, I am prescribing here only as a health doctor, but particularly as a mind doctor. The mistreated child, if the wrong is long continued, must suffer permanent injury to mind, morals and spiritual well being.

After this badly treated infant is permitted to have a good long cry—nature's best gymnastic at the baby age—and has thus churned the dark blood and refuse out of his system; after he has had a very light meal sufficient only to soothe the nerves and keep up the metabolisms; after he has slept nearly a solid week to make up for long-standing arrears, he will astonish his foolish parents with his brightness of mind and his cheerful cooing.

Let the baby cry loud once per day or more and thus get his physical exercise; feed moderately and by the clock rather than by the cry; discontinue the jiggling; quit your own nervous fears with thoughts of assurance; treat the child normally as to air and breathing; thus enforce a regular program into his character; and finally he will tend to develop into a smart, well-poised young specimen of "good breeding."

Hints For The Household

To prevent a tea cloth getting torn or rust-stained by the nail on which it hangs, pass the nail through a cork before hammering it in the wall. The cloth will cling to the cork instead of slipping off, and will not get torn or rusty, as the nail is covered by the cork.

If a linen frock has become at all faded or worn it is useless to put it away, for it will appear very shabby looking when brought to light again next Summer. In such a case it is far better either to give it away at once and to save its box room, or to use it as a morning frock when dusting or cooking has to be done.

A muslin blouse trimmed with lace requires special attention when being ironed. The lace should be treated first and ironed on the wrong side, in order to bring the pattern up; the muslin is ironed on the right side. Pleatings and frills requiring goffering are, of course, treated last.
